INDIAN VILLAGE

If our lives could be represented by a puzzle, then the year 1978 would just be a piece of that puzzle. For some it is the beginning piece upon which a future is built. For others, it is a middle piece which may seem unimportant, yet the puzzle of life could not be complete without it. For still others, it is the final piece which will complete an important stage of their lives.

As our lives progress, each event is a new piece to add to our puzzle. Every year brings change, yet the years still fit together to form a lifetime.

The past year has meant something different to each and every student at U.S.H.S. No matter what the year has brought to you, you can never erase what has occurred. 1978 will always be . . .

A PIECE OF YOUR LIFE.

TOMORROW'S OPPORTUNITY

If we might have a second chance
To live the days once more,
And rectify mistake's we've made
To even up the score.
If we might have a second chance
To use the knowledge gained,
Perhaps we might become at last
As fine as God ordained.
But though we can't retrace our steps,
However stands the score,
Tomorrow brings another chance
For us to try once more

Queen Tracy smiles, having received the game ball.

On September 30, the student body of Upper Sandusky High School chose Tracy Sellers to reign as the 1977-78 Homecoming Queen. As the result of a tie, this year's court, chosen by the Senior class, consisted of six members instead of the usual five. Each girl was escorted by her father. Karen Vaughn, the 1976-77 Homecoming Queen, was on hand to crown the new queen. With the support of Tracy and her court, the fighting Rams beat Norwalk by a score of 21-7.

The Homecoming Court cheers the Rams to Victory.

Dear Sirs:

We are happy to inform you that our company, "General Products," is well in hand, since we have removed the four previous directors. Since I, Edward McKeever, the former head of General Products, was elected to the Senate, the four directors were letting the company run downhill. Fortunately, the directors hired Laura Partridge. They sent her to me for contracts, but with the help of her and her secretary, the directors were removed and the company is now running smoothly.

Sincerely yours,
Edward McKeever

EXCHANGE STUDENTS

Gundi, Gabriele (standing), Marta, and Fernanda (seated), joined our school as exchange students this year.

Marta Lia Sanchez
Santa Marta, Colombia

Fernanda M. Borges
Bariri, Brazil

Gabriele Koch
Hollenstedt, Germany

Gundi Hartger
Nordhorn, Germany

This year 4,400 students from Europe, South America, Austrailia, the Middle East, and the Far East became, for a time, members of U.S. families. Since 1951, Youth for Understanding has exchanged over 60,000 students from 50 countries. This year at U.S.H.S. we were fortunate to have four exchange students.

Exchange students live with families in the area. These students learn to know the customs and life-styles of this country far more intimately than any tourist can. They come to us from a variety of countries, and through them we learn that people throughout the world are pretty much the same.

Each of our exchange students seem to enjoy our school. They agree that there are many differences, but they get along quite well under the circumstances. We are glad that we have had the opportunity to spend the year with these four students.

ENGLISH

Miss Flickinger helps Lisa Ward with an assignment.

ENGLISH II: English II was a required course of all Sophomores. In previous years Sophomores only took one semester of English. However, this year Sophomores were required to take a full year of English. Some areas covered in English II were facets of grammar, sentence structure, correct usage, punctuation, vocabulary, spelling, abbreviations, poetry forms, figures of speech, and literature. The Shakespearean tragedy, Julius Caesar was read.

ENGLISH III; English III, required of all Juniors, consist of a semester of English and a semester of mini-courses. During the semester of English the students studied the literary periods and completed a research paper, along with an emphasis on spelling, vocabulary, and book reports.

ENGLISH COMPOSITION: English Composition, for college-bound Seniors, contains a review of grammar and literature. The literature studied were early English literary works, a Shakespearean play, and a novel. Compositions were based on the literature studied.

PRACTICAL ENGLISH: The purpose of Practical English was to build better reading and oral language skills. Emphasis was on communication through expressive writing, the use of oral reports, and regular class discussion.

MINI-COURSES: Mini-Courses are a single 6-weeks course. The students have the opportunity to select a topic which interests them. The mini-courses are: Shakespeare, Novel, Humor in Literature, Athlete, Views of Women, Folklore, Great Ideas in Discussion, Bible, Speed Reading, Poetry, Comparative Beliefs, Mythology, Mass Media, Reading for Pleasure, Science Fiction, Death, Drama For Fun, Fantasy, and Creative Writing. Semester courses of Speech and Media Writing were also offered.

FOREIGN LANGUAGES

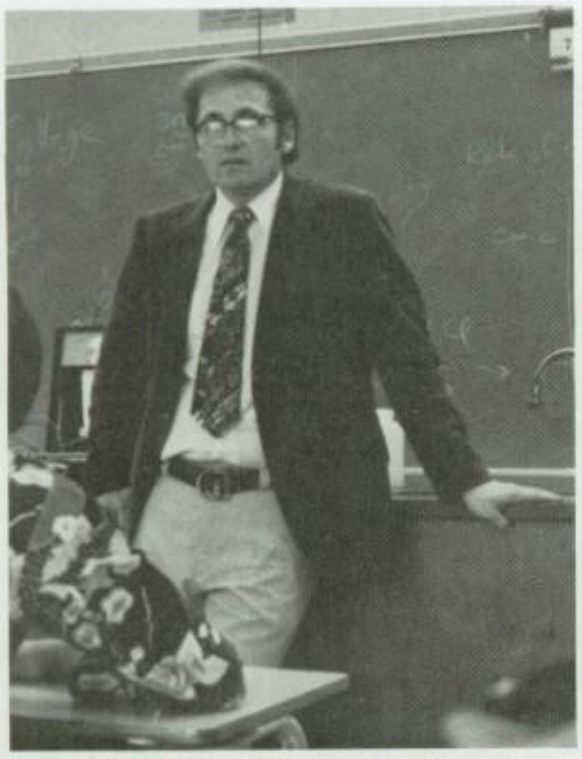
FRENCH I & II: The first lessons in French I laid emphasis on the thorough assimilation of enough vocabulary and grammar to give the student at once some feeling of control over the language. Fluency, translation, and culture were studied in both years of French. French II was a continuation of French I on a more advanced level. All 7 students on the French Scholarship teams received awards from placing on the O.T.S.A. tests. Five of the awards were State awards.

LATIN I & II: The primary purpose of having Latin in the school curriculum is its tremendous value in English. It is also the foundation of other modern languages. Latin II contains advanced grammar and translations from the classics culminating in the study of Julius Caesar and the Gallic Wars.

SPANISH: The aims of Spanish I were the speaking, reading, and writing of Spanish in addition to studying the historical and cultural background of Spanish-speaking peoples. The goal of Spanish II was for the students to be able to speak and understand the language. Short stories and adaptations of Spanish people were studied. Spanish III was a continuation in Spanish with emphasis on Literature and Art. In Spanish IV stress was placed on reading and comprehension through literature. Communication via composition and daily conversation were emphasized.

Mr. Criner explains a lesson to Jill Graesar in French II.

SCIENCE

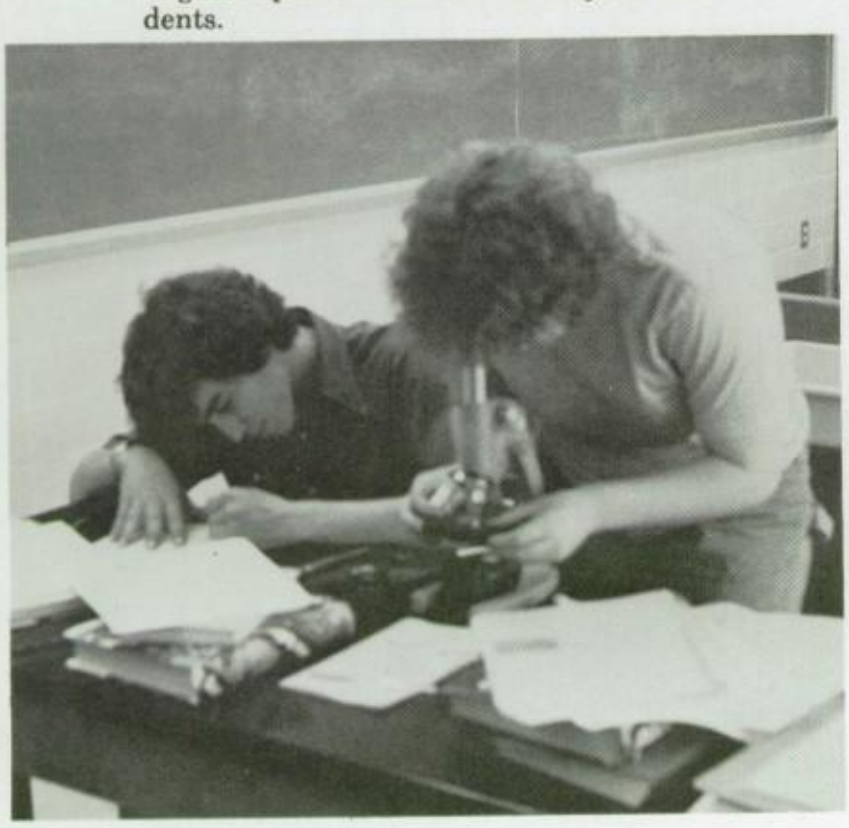


A guest speaker talks to the Physics students.

BIOLOGY: Biology is a laboratory oriented course that covers the field of plant life, the various groups of animal life, and physiology. The purpose of the course is to provide for a knowledge of the structure and life processes of living organisms, an understanding of the interdependence of living organisms, an acquaintance with the vocations dependent upon a knowledge of biological principles, and an appreciation for the natural surroundings.

CHEMISTRY I & II: Chemistry I is a laboratory oriented course. It is the study of matter which make-up the world and the laws and principles governing its change. The objectives of Chemistry II are to perform, understand and write-up many experiments not covered in Chemistry I. Theories, equation techniques and reactions are a few topics covered.

PHYSICS: The purpose of this course is to study laws of the universe in such topics as light, electricity, heat, sound, mechanics, electronics, and modern topics of the atom and nuclear theories.



Vicki Williams and John Brodman work on a Biology lab.

Jeff Warner sets up a lab in Physics.

ART

ART I: In Art I students attempted to solve problems introduced in pencil, ink, crayon, pastel, and charcoal drawing. Other projects introduced included drawing and using handcraft stencils, lettering, weaving, and shaping clayware.

ART II: This course illustrated how art is related to everyday life by the presentation of problems involving state scenery design, poster design, and holiday decorations.

ART III & IV: Art III & IV are the most advanced courses in art. More concentration was placed upon broader concepts in design with the introduction to display case modeling, sculpture, the developing of paper mache figures, mobiles, and more advanced ceramic ware crafting. For the first time this year an Art show was held at the high school displaying many of the outstanding works.

Accounting students hard at work.

ACCOUNTING I & II: The purpose of these courses is to give pupils the opportunity to explore their interests and their aptitude for work in the field of accounting, to develop technical skills required for competent performance by an accounting clerk at the beginning level, and to provide a background for advancement in the business world. These courses also enable the individual to keep the simpler forms of records needed in the management of business.

STENOGRAPHY I & II: Shorthand I includes the memorization of brief forms and phrases, the development of the ability to take shorthand meaningfully and fluently, and the skill in taking dictation from practiced and unpracticed material. Shorthand II includes a review of Shorthand I and of English fundamentals. Dictation for speed building is stressed.

TYPING I & II: In Typing I the students develop typing skill for both personal and vocational use. Touch, speed, and accuracy are emphasized. The course includes straight copy, business and personal letters, envelope addressing, manuscripts, carbon copies, tabulation, and other production problems. Typing II is designed to develop professional speed for students in the commercial secretarial course.

PERSONAL TYPING: This course is geared for the non-business student. Techniques in the basic skills of typing are taught.

OFFICE PRACTICE: Office Practice covers the information, procedures, and machines with which all office workers need to have a familiarity before accepting an office position. It ties together and integrates the knowledge and skills gained in other business courses and introduces new related subject matter, such as special typewriting techniques, filing, mimeographing, duplicating, use of dictating machines and the operation of various computing devices.

HOME ECONOMICS

HOME ECONOMICS: Home Economics covers many different areas such as foods, clothing, child care, embroidery, knitting, and elements and principles of design, color and furniture arrangement. In Home Ec. III & IV more skilled and creative areas are studied.

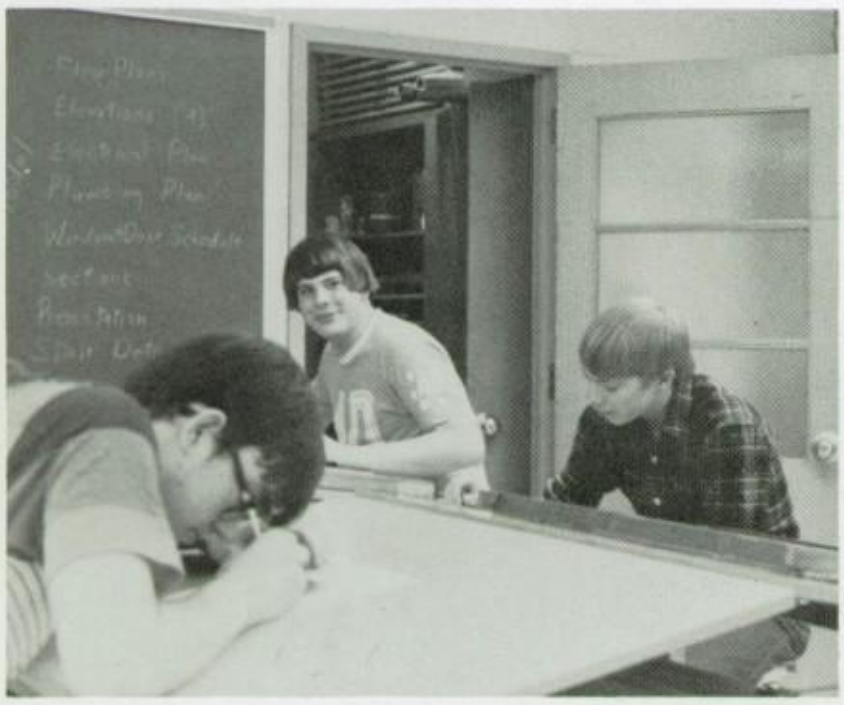
HOME EC. SPECIAL: This course is offered to Seniors who have not had Home Economics in the senior high school. The need for training in all phases of home making makes it necessary to pick out the highlights and present them in a compact manner. This course has become very popular for many boys as well as girls.

O.K., Who took the material?

VOCATIONAL AGRICULTURE

VOCATIONAL AGRICULTURE: This is a course for students interested in farm production agriculture or related areas. The different levels of Vo. Ag. are broken down into Vo. Ag. I, II, III, IV. In the lower levels classroom, farm, shop, and home project experiences are used as learning devices. In the more advanced levels farm management techniques are studied. Moreover, a supervised farming program is conducted by each student.

INDUSTRIAL ARTS



INDUSTRIAL ARTS II: Industrial Arts II is an extension of Industrial Arts I with more emphasis on machines, tools and technology. Students are exposed to many aspects of the metal working industry.

INDUSTRIAL ARTS III: Industrial Arts III includes an introduction to the various metal working techniques and machinery.

INDUSTRIAL ARTS IV: Industrial Arts IV stresses individual projects, the maintenance and repair of power machinery, and is the terminal course for students who plan to go directly into industrial and shop work.

MECHANICAL DRAWING I, II, III: Mechanical Drawing is a course which stresses the need and necessity for the graphic language. In so doing, a student learns basic skills in third view projection, pictorial drawing, dimensioning, machine drawing, and architectural drawing.

MATH

The overhead projector is used quite often in Geometry.

Mr. McCutchen helps Jim Frank in Advanced Math.

ALGEBRA II: The 1st part of Algebra II is a review of the basic principles of Algebra; the remainder is an extension of those principles of Algebra to include fractional and negative exponents, algebraic and graphic solutions of quadratic equations, and some elementary co-ordinate geometry.

UNIFIED GEOMETRY: Unified Geometry deals with the relationship among lines, angles, and areas. The major emphasis is on the techniques of discovery, proof, and numerical solution.

ADVANCED MATHEMATICS: The purpose of this course is to prepare the student for college mathematics. The 1st semester is a basic course in trigonometry. The 2nd semester is calculus and analytic geometry.

SENIOR MATHEMATICS: This course consists of a series of practical lessons in the basic essentials of arithmetic, informal geometry, algebra, and numerical trigonometry. Mathematical situations that generally arise in school, home, community, industry, occupations, business, aviation, and sports are presented in this course.

SOCIAL STUDIES

AMERICAN GOVERNMENT: The purpose of this course is to give the students an understanding of the government under which they live. This is done by studying in detail the U.S. Constitution as well as federal, state, and local governments. Through "Government Day" and other classroom activities, students experience practical application of our democratic process.

AMERICAN HISTORY: American History stresses the development of American democracy from the age of discovery to the present time.

WORLD HISTORY: World History is a study of the story of man and nations through the ages. The background of our present customs, architecture, government, and way of life is studied.

SOCIOLOGY: The purpose of this course is to introduce the student to the science and art of human relations, to build the knowledge he has acquired in other social sciences, and to aid him in gaining concrete and definite knowledge of social problems and scientific ways of studying them.

FAMILY LIVING: This course begins where young people are now and attempts to help them make wiser choices during the remaining years of adolescence. The remainder of the course deals with male and female roles, marriage itself, the care of infants and children, and financial problems in marriage.

The Prosecuting attorneys confer during a mock trial in Government class.

PHYSICAL EDUCATION

PHYSICAL EDUCATION: Physical education is required for all Sophomores. This course seeks to develop through formal exercise and play, not only physical fitness, but desirable leadership and teamwork. Basic physical skills are developed, safe methods of sports participation are stressed, and the student is introduced to games which will have a carry-over value in adult life.

DRIVERS' EDUCATION

DRIVERS' EDUCATION: This course consists of 36 hours of classroom instruction and 24 hours of in-car instruction. A student must have reached his sixteenth birthday before he is eligible to participate in the car instruction. Class work includes correct operation of the motor vehicle, study of traffic laws, and responsibilities of driving. Class work is designed to develop good driver attitudes.

E.M.R. WORK-STUDY PROGRAM

E.M.R. WORK-STUDY PROGRAM: The E.M.R. Work-Study Program is available to those students at USHS who meet the standards established by the State Board of Education. The purpose of the program is to help the students get an education which emphasizes life skills including employment. The academic subjects are taught with a practical, common-sense format which should help the students better handle future life situations. The work part of the program allows the student to learn about, and to actually participate in the world of work. The structure is such that the first year student (Soph.) works at a job at school for a short period during the day or at an after school job. The second year student (Jr.) is allowed to leave school for ½ day to learn by working at a job station in the community. The Senior students hold a full-time job in addition to attending a night seminar each week. With this combination of classroom instruction and on-the-job training, the Work-Study student should be better prepared to succeed in the world after his graduation from high school.

Forty-five students from the Upper Sandusky school district attend Tri-Rivers Joint Vocational School. Located just east of Marion, Ohio, Tri-Rivers is considered an extension of each of the ten participating schools. USHS students attending Tri-Rivers are encouraged to participate in all school activities that are scheduled outside the normal school day.

Tri-Rivers offers thirty vocational education courses. Twenty-three are two-year in-school courses; three are two-year in-school courses with cooperative on-the-job training during the senior year. Three courses are one-year cooperative courses for seniors only, and one course is an ungraded cooperative course.

Upper Sandusky Students enrolled at Tri-Rivers graduate at USHS, since Tri-Rivers is an extension of the participating schools. The 1977 Upper Sandusky Football team enjoyed a successful 7-2 year, the first time a Ram team had compiled 7 victories in a single season since 1957. Upper opened its schedule with 6 consecutive wins using a devasting ground-attack and a hard-hitting defense. However, two tough opponents, back-to-back, dropped the Ram's record to a 6-2 mark. Bouncing back, they crushed Bucyrus 46-7 to finish the season.

Gary Ricker saw his third straight winning season as head coach. Over this period, Ram teams have compiled a 19-7-1 overall record, finishing second twice and third once. The N.O.L.'s top coahcing staff is comprised of Ricker — head coach and offensive backs, Rodger Bartley — linebackers and defensive ends, Rob Lee — offensive line, Wayne Stevenson — defensive backs, Pete Miller — defensive line, and Bruce Schrider — offensive line. Stevenson heads the J.V. staff, along with Miller and Schrider.

AWARD WINNERS: ROW 1 (L to R) — Devin Parsell, Chad Kolarik; ROW 2 (L to R) — Keith Newell, Jim Jackman, Doug McDaniel, Steve Courtad; ROW 3 (L to R) — Scott Pagnard, Doug Orians, Mark Thiel, Mark Calmes, Lloyd Lundy.

THE COACHES

COACHES: ROW 1 (L to R) — Wayne Stevenson, Gary Ricker, Pete Miller ROW 2 (L to R) — Bruce Schrider, Rodger Bartley, Rob Lee

Over the year the Rams compiled some impressive statistics. Behind a strong offensive line consisting of Keith Newell at center, guards Chad Kolarik, Jim Mosman, Ron Niederkohr, and Scott Stecher, tackles Mark Calmes and Chuck Helge, and ends Ron Gatchell, Brian Rife, Brian McClain, Thom Gilbertsen, and Steve Crawford, the offense churned out a total of 2173 yards, a game average of 241 yards. Fullback Doug Orians, with 970 yards and 9 touchdowns, lead an offensive backfield of quarterback Doug McDaniel, and halfbacks Jim Jackman, Jeff Warner, and Jim Schuster. McDaniels averaged 5.8 yards per carry and Jackman chipped in 544 yards, both had 6 touchdowns.

The defense also had a good year. A defensive front consisting of middle guards Charlie Book and Steve Johnson, tackles Lloyd Lundy, Mark Thiel, and Brian Caldwell, ends Steve Courtad and Ed Ulrich, and linebackers John McColly and Kevin Grahm, allowed only 8 touchdowns in 9 games. Experienced Seniors, Devin Parsell, Scott Pagnard, and Bill Lambrite, combined with Russell Young, Jay Leslie, and Steve Howard in the defensive backfield. Parsell lead the team in interceptions with 2. The entire defense held opponents to 36 pass completions, allowed only 2.8 yards per rush average, and caused 30 fumbles.

The special teams were led by punt and kick-off returner Russ Young. Young averaged 15.1 yards on punt returns and 22.0 yards on kick-off returns. Jeff Warner also averaged 18.7 yards on kick-off returns. This year the Rams featured two strong punters, John McColly (31.9 yards) and Lloyd Lundy (30.3 yards) The kick-off and punt teams also played an important role and served as a good experience gainer for young players.

The Junior Varsity team closed their season with a 3-4-1 record. The year proved valuable for the Sophomores, allowing everyone a chance to play. In fact, every member of the football team saw some Varsity action.

Intramural basketball was held on Saturday mornings under the direction of Mr. Jim Morrison. In the final league standings, there was a three-way tie for first place between the Enforcers, the Hangovers, and the Horses. The Hangovers won the tournament. Intramurals give the opportunity to play basketball to many boys who otherwise would not be able to play in organized competition.

The 1978 USHS tennis season was one of extremes; a memorable, first-time trip to Cincinnati, key victories, heartbreaking losses, vehicle accidents, un-tennislike weather, and the maturation which often accompanies hardship. With most of the team returning from last year, hope ran high for a great season, or at least, the best season ever recorded by a USHS tennis team.

After the very helpful and enjoyable trip to Cincinnati, the team returned home to win two out of its first three league matches, including the first win ever over eventual league champion Galion and the first win since 1965 over perennial power Shelby. It was at this point that the team learned through the loss of two key players that life in general and tennis seasons in particular cannot be preplanned and ordered to our wishes.

With a rearranged line-up through most of the remainder of the season, the team went 3-10 to finish the year with a 6-12 record, tying the previous best record. In addition, the team made its best showing ever in the Sectional tournament held indoors this year at the Lakewood Racket Club in Lexington, Ohio. At this tournament, Bill Latham became only the third player from Upper ever to advance to the District tournament at B.G.S.U. The team will be losing two valuable Seniors. They are Bill Latham and Jim Frank.

AWARD WINNERS: (L to R) — Bill Latham — K. of C. Award, Most Valuable Player; Jon Stansbery — Most Improved Player

VARSITY — ROW 1 (L to R) — Bill Lambrite, John Williams, Scott Stecher, Jeff Clinger, Dean Leonard, Dan Risner, Joe Schilling, Steve Johnson, Dave Hastings; ROW 2 (L to R) — Assistant Coach Dean McCutchen, Randy Worthington, Jim Jackman, John McColly, Mike King, Mark Calmes, Brian McClain, Devin Parsell, Bill Wall, Chad Kolarik, Head Coach Tom Baker

The 1978 USHS Baseball team finished the year with a 5-13 record. It was the first losing season in 4 years. However, the Rams were not without their bright spots. Under Head Coach Tom Baker, the first Sectional title in Baseball in the school's history was captured. The Rams accomplished this by beating Ontario 4-3 and Bucyrus 3-1. It was the third time the Redmen had fallen to Upper in 1978.

A Senior dominated, but inexperienced squad was lead by tri-captains Jim Jackman, Dave Hastings, and Bill Lambrite. Jackman carried the team's high batting average at .339. He also led the team in runs — 10, hits — 20, and total bases — 30. Junior Steve Johnson hit .283, second best for the Rams. Chad Kolarik, 3-3, and Sophomore Rick Moore, 1-5, saw most of the action on the mound. Both put in good performances despite never having pitched Varsity baseball before this year.

Due to the bad weather conditions the Junior Varsity schedule was limited to three games. They lost once to Elgin and twice to Bucyrus. For many players it was the first chance to participate in baseball because of no J.V. team last year.

Rose Craig, Mgr. Phyllis Niederkohr, Lisa Lee, Robin Burks, Tracy Thomas, Sally Archer, Linda Heyman, Sue Richards, Lisa Frey, Lesa Wall, Laura Willson, Laura Crow, and Coach Marsha Barnes

The 1978 Girls' Track team, under Coach Marsha Barnes, consisted of 22 team members, five of which were managers. The participating team number was 17 which made it difficult to fill each of the 14 events with more than one or two competitors. They closed the season with a 2-9 record. Many of the close meets were lost because of a lack of depth. The team finished 6th in the N.O.L.

The season did have some bright spots. The major one being CherylHerring. Cheryl not only won the N.O.L. in the mile, setting a new N.O.L. record, and the half-mile, won the Sectional championship in the mile, and qualified for districts in both, but placed 4th in the State in the mile with a super time of 5:19.6.

Other individual accomplishments were made by Linda Heyman in the discus, Julie Thiel in the hurdles and 440, the mile relay team of Julie Thiel, Lisa Lee, Lisa Frey, and Lesa Wall, the Medley relay team of Robin Burks, Sally Archer, Sue Quinn, and Lisa Frey, and miler Tracy Thomas.

Linda Heyman placed 4th in the N.O.L. and had a season best throw of 97'2½", 3 feet short of a school record. Julie Thiel, running the new event of the 100 meter hurdles, established the school record at 17.4 seconds. Julie placed 4th in the N.O.L. in the hurdles, 5th in the 440, and was a member of the 2nd place mile relay team. The medley relay team placed 6th in the N.O.L. and Tracy Thomas placed 6th in the mile.

The team will be losing 7 Seniors including Co-captains Cheryl Herring and Linda Heyman. The other Seniors are Sally Archer, Robin Burks, Mgr. Rose Craig, Lisa Frey, and Julie Thiel.

1977 RAM BAND

The 1977-78 marching Ram Band, directed by Mr. James McDonald, consisted of 121 members. There were 96 marchers, 18 flags, and 7 majorettes. The band participated in two contests: Marion Local and Lexington placing third and fourth respectively. One of this years highlights was having Dwight Hudson, Ohio State's drum major, perform with the band. For the third consecutive year the Ram Band combined with the Shelby Whippets for a halftime performance which featured such songs as "Amarillo", "Star Wars", and "Cute". The officers for this years band were seniors Lisa McClain — President, Pam Wolfe — Vice President, and Pam Barth — Secretary Treasurer.

Many activities kept this group busy. In the fall they made Thanksgiving baskets for the teachers, staff, secretaries and administration. Then in the spring they combined with the F.F.A. for a Sweethearts Dance.

The group has many activities for the welfare of others. The Hi-Teens make U.S.H.S. very proud.

KEY CLUB

The 1977-78 addition of the Key Club consisted of 30 members. The club held meetings once a month. Each week two members attended the Kiwanis Luncheon. The members also maintained the commons bulletin board and the Red Cross flags which were placed uptown. For money-making projects the club helped sell luminaries for Christmas. The annual Key Club Butler Day was held in the spring. The butlers were bought and had to perform such difficult tasks as opening doors and carrying books.

The Orange and Black had two new goals which they wished to attain this year: publishing more articles concerning national events, and printing more editorial comments.

Few people realize the definite and strict schedule the staff must follow. Articles need to be turned in approximately one week before they are to be published. They are then proofread by Mr. Criner.

After this first proofreading, the articles are typed and proofread again by Mrs. Kinley. The class must then write "heads" for these articles. This is a bigger task than most realize, because certain rules must be followed and a size of type must be selected to fit the space.

Every week O & B Staff members have the experience of actually laying out the Orange and Black page at the Chief Union Office. This is a very unusual opportunity because most schools must send their copy to a distant city for publication.

The Orange and Black is very fortunate also because the Daily Chief Union donates one page each week for the purpose of printing the school's newspaper.

The 1978 Art Club has been busy this year with various projects. One of them was their annual decorating of the windows uptown for Halloween, another was a painting presented to Miss Nellie Saulteman for her 107th birthday. For Christmas again they put their hand in at painting Christmas scenes for the Wyandot Manor. As their final project of the year they painted pictures to replace the old ones in the commons.

The Art Club also gets credit for the decorations and decorative display cases around U.S.H.S.

"A golden past, a brighter future," was this year's theme of the F.F.A. during its 50th anniversary. This year the chapter held monthly meetings, a special ice cream activity, and held its annual fruit sales. The F.F.A. banquet, held on March 14, saw Miss Sandy Riele crowned as chapter sweetheart. Paul Wesler, State Association Treasurer 1977-78, was guest speaker.

Other chapter activities included: State and National conventions, judging contests, public speaking, and parliamentary procedure. The chapter will strive to achieve a brighter future under the advice of Mr. Ralph Schrock, their advisor.

The Future Homemakers of America is an organization for anyone who has taken at least one year of Home Economics.

The activities of the F.H.A. included projects to raise money such as cookbooks sales, and bake sales. This money is used to purchase equipment for the Home Economics Dept. and for the State project which is Children's Hospital.

The annual F.H.A. Convention in Columbus is the highlight of the F.H.A. year. Included at the state Convention is our sister organization HERO — Home Economics Related Occupations, which includes the students at Tri-Rivers. We had 14 members this year.

FUTURE TEACHERS OF AMERICA

The 1977-78 FTA had an observation day in May to learn and understand the different techniques of teaching. They had a bake sale to earn money for teaching scholarships. These scholarships are available to all senior members of FTA.

FUTURE NURSES OF AMERICA

Row 1 Vicki Riedlinger; President, Midge Collins; Vice President, Chris Hoy; Secretary, Brenda Adkins; Treasurer. Row 2 Sheila Collins, Marsha Mittermaier, Kelly Hetzel, Theresa Borer. Row 3 Joy Wilson, Lynn Helge, Chris Chandler, Tammie Hill, Vickie Williams, Sharon Huffman, Patricia Merrick, Lisa Zimmerman, Lisa Lee.

F.N.A. is a growing organization at USHS. Many of the girls are interested in becoming nurses or going into a medical career. The girls do volunteer work as a candy striper after school at Wyandot Memorial Hospital. Being a candy striper enables the girls to get an idea of the nursing profession in their field of helping others.

Helping with the meals is one of the numerous jobs of a candy striper.

Midge Collins receives instructions before starting her work.

NEW, ADDED ATTRACTION!

This year was the first year for a girls' fastpitch softball team at our school. It was also the first year for N.O.L. play. This year's team consisted of 18 players, but because of the number of uniforms only 17 dressed. The Lady Rams, under Coach Wayne Stevenson, finished with a 7-7 league record. Their overall record was 8-8. The girls had a bright spot during their season; that being capturing a Sectional Championship. The girls did a fine job playing fastpitch for the first time and hopefully next year they will do that much better. The Rams have ten Seniors graduating this year. They are Marlene Batton, Trudy Bowen, Sara Derr, Cyndey Heffelfinger, Shelley Karg, Linda Kauble, Lisa Lautermilch, Lisa McClain, Deb Rollins, and Deb Saull.

AWARD WINNERS: (L to R) — Sue Bailey — Best Defensive Player; Lisa McClain — K. of C. Award; Linda Kauble — Best Offensive Player; Lisa Lautermilch — Honorary Captain

SECTIONAL CHAMPS

... and the tag by Neen, she's out!

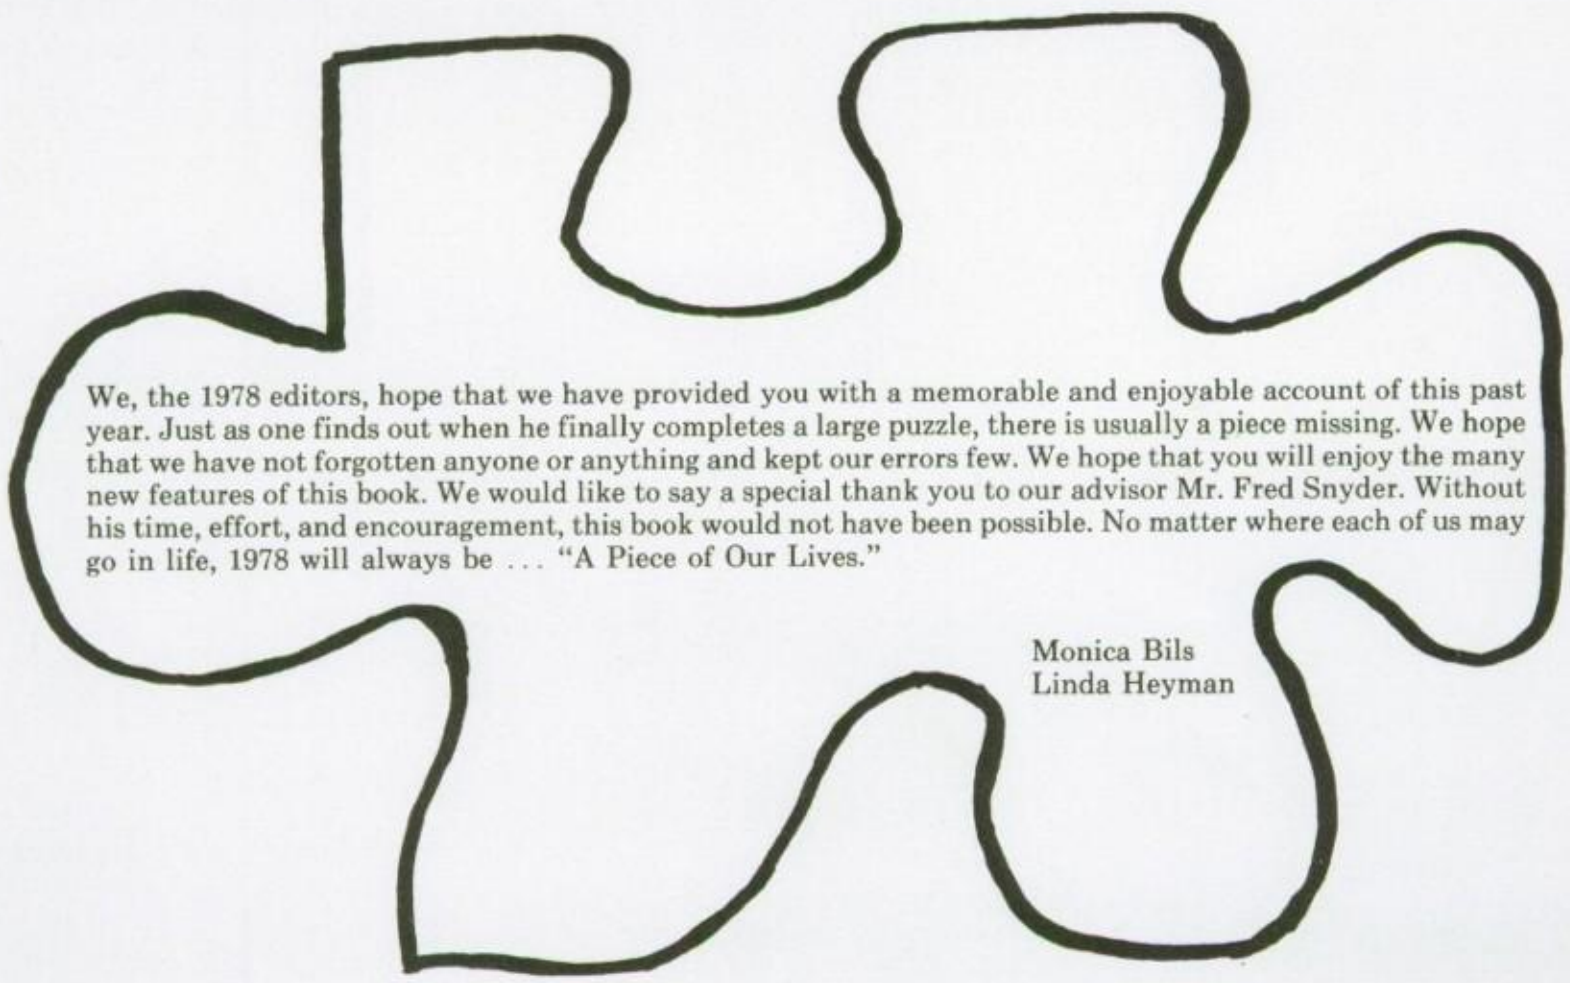
THE FINAL PIECE



We, the 1978 editors, hope that we have provided you with a memorable and enjoyable account of this past year. Just as one finds out when he finally completes a large puzzle, there is usually a piece missing. We hope that we have not forgotten anyone or anything and kept our errors few. We hope that you will enjoy the many new features of this book. We would like to say a special thank you to our advisor Mr. Fred Snyder. Without his time, effort, and encouragement, this book would not have been possible. No matter where each of us may go in life, 1978 will always be . . . "A Piece of Our Lives."
